

# TOP-90 COMFORT/COMFORT S

**VELUX®**

Commercial

Complete transparency for clear views and plenty of light

The energetic alternative with sound protection potential in rectangular and round formats

## TOP-90 COMFORT

- available as fixed or ventilated dome rooflight for flat roofs
- high-quality ventilation drives with 300 or 500 mm lifting height
- a wide range of rectangular and round sizes offer design alternatives

### Glazing variants

#### 1. Version: comfort (high-quality, UV-resistant plastic)

- shell composition four-skinned (completely clear):
  - thermal transfer coefficient:  
U-value = 1.5 W/m<sup>2</sup>K according to DIN EN 1873:2006<sup>1</sup>
  - U<sub>t</sub> = 1.5 W/m<sup>2</sup>K according to DIN EN 1873:2014<sup>2</sup>
  - U<sub>rc,ref300</sub> = 1.21 W/m<sup>2</sup>K according to DIN EN 1873:2014<sup>3</sup>
  - light transmission: T<sub>L</sub> minimum 75%
  - energy transmission: G value 68%
- shell composition four-skinned (outside opal):
  - light transmission: T<sub>L</sub> >= 65%
  - energy transmission: G value >= 60%

#### optional polycarbonate shell outside<sup>3</sup> (SUPER-TOP construction)

- increased resistance against hail according to VKF testing regulation no. 10 (HW 5 for water tightness)

#### optional – all shells made of PC<sup>3</sup> (HAILSTOP construction)

- increased resistance against hail according to VKF testing regulation no. 10 (HW5 for water tightness, light transmission, appearance and mechanical strength)

sound insulation R<sub>w</sub> = approximately 22 dB

#### Notes:

1) according to EN ISO 6946

2) U<sub>t</sub> according to DIN EN 1873:2014 for horizontal installation

3) U<sub>rc,ref300</sub> = reference value of the total heat transfer coefficient of a dome rooflight with the order size 120 x 120 cm with a skylight base of height 300 mm (here: ISO-THERM upstand) according to DIN EN 1873:2014

## 2. Version: COMFORT S

(high-quality, UV-resistant plastic + LSG 8 mm)

optional design as COMFORT S

- thermal transfer coefficient:

U-value = 1.2 W/m<sup>2</sup>K according to DIN EN 1873:2006<sup>1</sup>

U<sub>t</sub> = 1.2 W/m<sup>2</sup>K according to DIN EN 1873:2014<sup>2</sup>

U<sub>rc,ref300</sub> = 1.11 W/m<sup>2</sup>K according to DIN EN 1873:2014<sup>3</sup>

- increased sound insulation (R<sub>w</sub> ≥ 36 dB)

- permanent fall-through protection in closed position/ventilation position until 300 mm

- verification according to DIN 18008-6:2008-02 (according to the investigation report of the B 18 1412.4 TU-Darmstadt/DE)

- design of the roof exit (DA-EL, DA-M, DA-M-EL analog TOP-90 sound reduction)

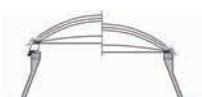

Sound insulation R<sub>w</sub> ≥ 36 dB

### Product advantages

- better than the requirements of the EnEV 2014 (2016)
- high-quality design (equipped with chain thrust motor)
- provides light, fresh air and a clear view, ideal for improving indoor comfort
- optional ventilation and inner shadowing system, with radio remote control
- connection to SMARTCONTROL for more convenience
